23. Passports & microchips for ponies will be checked at the sale. Vendors must ensure they contact a "checker" immediately upon arrival at the Mart to have their ponies' passports checked prior to handing your passports to the auctioneer's office. It is the responsibility of the vendor or any person acting on their behalf to ensure that this is carried out.

Shetland Pony Evaluation Scheme

The abolition, in 2005, of the Shetland Pony Stud-Book Society (SPS-BS) Stallion Assessment Scheme left no official programme in operation for selection of a stallion displaying good conformation and breed characteristics nor, perhaps more importantly, the rejection of one with bad.

Fearing that this could possibly contribute to a deterioration of breed standards, Shetland, under the Pony Breeders of Shetland Association (PBSA), established a Shetland Pony Evaluation Scheme of its own. The aim of this scheme is to do what we can to ensure that, at least, the quality and purity of the breed is maintained and, at best, continues to improve.

This scheme is voluntary and is open to anyone who wishes to put their ponies forward. The scheme is the property of the Pony Breeders of Shetland Association.

This scheme gives breeders the opportunity to have their stallions and Mares fully evaluated by three senior SPSBS Panel judges as well as the SPS-BS VVE. The VVE in operation under the SPS-BS, which is in fact a compulsory part of our stallion scheme, is not impinged upon nor affected in any way by the PBSA Shetland Pony Evaluation Scheme. Mares are evaluated using the same criteria.

The scheme runs annually in Shetland and is usually on the last weekend of July.

For full details of the Pony Breeders of Shetland Association Shetland Pony Evaluation Scheme visit <https://www.shetlandponybreeders.com/evaluation-scheme> this includes information for any groups out with Shetland who may be interested in hosting an evaluation or contact our Area Organiser, Mrs Kerry Llewelyn, spesareaorganiser@hotmail.co.uk, 07825 182495.

The Select Sale lots are offered in order of their connection to the Evaluation Scheme with the first two lots being Gold Award evaluated mares with details of their evaluation percentages.

Charlie is a handsome boy, well-marked and we feel certainly has the quality to go on to become a stallion or ridden/performance pony. He currently stands at 38" as a 1 year old. He is very kind and easy to do but related to every female in our stud so we hope he can go on to mature and reach his potential at another stud.

A beautiful filly foal to make around 38" – 39". Sweet temperament. Very keen to be out on halter. Sire and both full brothers took to cart, pack saddle and ridden work quickly and Genie shows the same willingness to learn. Genie could do very well in the show ring. She is a nice mover with a lot of presence. I am only selling her as she has a small umbilical hernia and Shetland Vets have advised against breeding with her. The hernia does not affect her daily life. I have done genetic testing with results being good as I thought she would be my next broodmare before the hernia became visible. More info available on request.

A good natured friendly late cut (4) gelding. Tiki goes between herds amicably, mostly living in the mare/gelding herd but sometimes keeps the stallion company. He doesn't thrive on the hill so would benefit from better grazing than we have here. Tiki has had a few spring time sinus infections so gets annual dentals for the last 4/5 years. He used to be quite timid with new people but with maturity has become more relaxed about this. He loves a grooming session and walks out in hand. Tiki has been sat on bareback regularly by all ages of children and small adults. He is such a softy that sheep can push him out of his feed bucket. He is well handled. He gets his hooves trimmed on the hill without feed or halter. I can check his teeth myself because he is so good. Tiki's dam is in the sale too.

A good strong mare with plenty of bone. Very good doer. Only for sale as she has fallen out with other herd members and I have nowhere to keep her and a friend separately long term. Does not cope being by herself. Has been long reined briefly and she thoroughly enjoyed it. Was sat on for the first time this year and behaved very well. She is reluctant to be caught sometimes but will follow a bucket into a pen, easy in a pen. One of the easiest ponies to handle on halter. Loves a pamper session. Only ever bred once and was a great mother, still does on her now 10 year old son. Son is also in the sale. I haven't bred her more as I don't feel her temperament is what I want on my foals. Shown as a foal to 2 year old by her breeder getting great results. Has had genetic and health testing done. More info on request. She has not been running with a stallion.

Rare opportunity to see a pony of these good old bloodlines, Crafton and Marshwood breeding. Correct, honest pony. Loves attention, catch in field, stands to be groomed, an easy boy to handle. Won prizes when in England. Only shown once in Shetland getting 2nd in a large class of good ponies. Wealth of hair, double mane and thick tail. Correct straight action, perfect mouth. No health issues, wormed to date. Buyers are welcome to view him in the field before the show and sale. Sadly at this sale 2023 his microchip could not read so he had to be withdrawn. This has now been sorted with the vet and SPSBS.
